SUMMARY

Fresh Vocational High School graduate majoring in Software Engineering, with 2+ years of experience in Fullstack JavaScript development, specializing in React.js and Next.js. Proficient in architecting scalable, clean web applications and designing responsive interfaces using modern UI libraries such as Shadcn and Aceternity UI. Committed to delivering high-quality technical solutions with a focus on seamless Framer Motion animations to create aesthetic, high-performance, and detail-oriented user experiences.

WORK EXPERIENCE

Quality Assurance (QA) Engineer Intern **January 2025 – June 2025**
Internship PT Jalin Mayantara Indonesia

Actively contributed over a 6-month vocational internship to ensure software quality through rigorous testing of the company's attendance system and an AI chatbot platform. Key responsibilities included documenting detailed test reports and validating features to guarantee all functionalities aligned perfectly with business requirements and user experience standards.
